June Term of Court Convenes.

After an adjournment of one week, Judge Robert L. Stout convened the June term of the Bourbon Circuit Court yesterday morning. While Judge Stout came to Paris last Monday to hold court, an adjournment was taken pending the action of the Court of Appeals regarding the constitutionality of the law enacted at the recent term of the Legislature, creating a separate district of the county of Franklin, and when the court's decision knocked out the new district he came here with a view of hearing equity cases.

The petit and grand juries were excused until yesterday morning, when the grand jury was selected. Col. Robt. B. Franklin, Commonwealth's Attorney, arrived yesterday from his home in Frankfort to look after the interests of the Commonwealth at the present term of court.

The call of the panel summoned for service on the grand jury, resulted in the following being selected:

Wm. Meteer, James D. McClintock, Sweeney Isgrig, Current Cunningham, John G. Towles, J. G. Ockerman, W. W. Hall, J. T. Hagan, Henry Gaitskill, C. V. Higgins, A. D. Leach, Aaron Smedley. Mr. Towles was designated as foreman of the body.

Judge Stout delivered the oath to Sheriff A. S. Thompson and his deputies, W. F. Talbott, J. O. Marshall and Ernest Martin and charged the grand jury briefly concerning the duties before them.

Judge Stout said that he realized the importance of a number of those composing the grand jury to be at home engaging in their labors on the farm, and for that reason he would make his charge as brief as possible, and outlined the duties they were expected to perform.

He said that Bourbon county enjoyed the distinction of being a peaceable and lawabiding county, and that reputation was due to the efforts of preceding juries in the performance of their duties. But with all the efforts of those empowered to uphold the law and order of the community, there was bound to exist a certain lawless element. He said that in other States Kentucky held a very unenviable reputation which was gained through the lawlessness of practically one section of the State, due to the laxity of the law in that section and the inefficiency of grand juries.

Without delivering an extensive charge Judge Stout referred to the misdemeanors, violations of the liquor law and gambling, carrying concealed weapons, and referred briefly to the fish and game laws which he said should be rigidly enforced to preserve the game of the State.

The call of the petit jury was made, and out of a panel of thirty-six only thirty appeared. Of this number two were excused and the remaining eleven qualified for service. Judge Stout ordered another panel to fill out the two juries, which was followed by a call of the Commonwealth docket. The case of the Commonwealth vs. Richard Henson will probably be the first case taken up.

Fish and Game Commission Ready

Kentucky's first Fish and Game Commission has been inducted into office, and the Commission organized, after meeting in the Governor's office at Frankfort and taking the oath of office. Commissioner Jos. G. Sachs, of Louisville, was chosen chairman of the new commission without opposition, and J. Quincy Ward, of Paris, was appointed executive agent. Offices have been opened in the new Capitol and Mr. Ward will remain in charge at all times.

Agricultural Schools.

The Agricultural College of State University has completed arrangements for the holding of one-week agricultural schools in different parts of the State during the summer months. These schools, of which lectures and demonstrations will be leading features, will be conducted by specialists in agriculture. The course will include horticulture, dairying, domestic science, poultry, soils and crops, feeding of animals and other subjects intended to improve farming operations in Kentucky.

STOCK, CROP AND FARM NOTES.

—Sheep in Nicholas county are reported practically free from rabies.

—The Montgomery county Fair Association will hold its annual fair the week of July 23-27 inclusive.

—W. H. Whaley Jr., bought Thursday from Matt Long, near Paris, three grade cows and one Jersey cow and calf at \$10 per head.

—The 174-acre farm of the late R. M. Robinson, at Marcellus, Garrard county, was sold to Mr. Edwards of Estill county, at \$132.25 per acre.

—Between 9,000 and 10,000 farmers of Alabama have entered the Alabama corn contest, inaugurated by the State Department of Agriculture and Industries, for the purpose of fostering a deeper interest in the growing of corn.

—John H. Morris, of Woodford county, has sold his good two-year-old chestnut colt, Forward, by Cessario, out of Forelock, to Dr. W. A. McEnerney, of Germany, for \$7,000. Forward is one of the best two-year-olds of the year being the winner of five races, in one of which he defeated Hawthorne.

—Winchester Democrat: "Pace & Scott, the well known traders, shipped last Thursday afternoon a double deck of lambs, containing 226, to the Cincinnati markets. The lot averaged 75 lbs. Lambs are scarce these days, and if prices keep up, the farmers will realize some nice money. This firm will ship several hundred between now and September."

Exit the Commerce Court.

The death knell of the Commerce court, which made a specialty of reversing the decisions of the Interstate Commerce Commission whenever those decisions were in the interest of shippers and consumers, and of sustaining the commerce commission whenever its decisions were favorable to the railroads, has been sounded. The Democratic House voted it out of existence, and a coalition of progressive Republicans and Democrats in the Senate has sustained the House.

Coal Barons Greedy.

Preparations are being made to add \$15,000,000 to the nation's coal bill this winter. Each one of us must contribute our pro rata to the fortunes of the coal barons. There is no reason or justice for the increase, except that the millionaire coal kings want the money and are in a position to make the people either "come across" or freeze.

The coal operators, who have been forced to grant the miners an increase in wages, which they say will mean an additional cost of \$5,000,000 in labor, are going to force the consumer to pay a sufficiently high price for coal to enable them to stand this increase, along with an additional extortion of \$10,000,000, which will be clear profit to the trust. Thus, for every dollar in increased prices that the coal operators propose to collect this winter for the miners, they have decided to extort two dollars for themselves. All us helpless consumers have to do is to pay the bill. Always, always, it is the consumer who pays the bill.

Milking the Country Banks.

Manager Scherer, of the New York Clearing House, testified to many things before the Money Trust investigating committee that will cause the country banks to sit up and take notice.

The clearing house was shown to be composed of fifty New York banks. No bank with a capital stock amounting to less than \$1,000,000 is eligible to membership.

Mr. Scherer's testimony revealed a system by which the New York banks gouge the country banks and their clients out of millions.

He said that it cost seven cents per \$1,000 to collect the checks of country banks. The Clearing House, he said, collects 70 cents per \$1,000, or ten times the real cost.

The average charge per day for collections is about \$80,000. It amounts to about \$50,000,000 a year. From this fleecing process the fifty banks comprising the clearing house association extorted sufficient tribute from the country bankers last year to enable each of the fifty New York banks to pay an eight per cent dividend on their capital stock.

Thus it becomes apparent to every fair-minded person why the New York banks and financial magnates so bitterly opposed the investigation by Congress of the Money Trust.

Eat the Pests.

"Eat sparrows; when boned, broiled, buttered and served on toast they are as fine as quail." This is the latest advice of Uncle Sam to help his nephews and nieces reduce the high cost of living. The Department of Agriculture issued a comprehensive pamphlet on the English sparrow, condemning him as a harmful pest, and concluding with a number of recipes for his preparation for the kitchen. Most of the pamphlet is devoted to demonstrating the harmfulness of the sparrow and telling how to kill them.

Famous Stage Beauties

look with horror on skin eruptions, blotches, sores or pimples. They don't have them, nor will any one who uses Bucklin's Arnica Salve. It glorifies the face, eczema or salt rheum vanish before it. How The Body Kills Germs.

Germs that get into the body are killed in two ways—by the white corpuscles of the blood, and by a germ-killing substance that is in the blood. Just what this substance is, we do not know. The blood of a healthy person always has some germ-killing substance in it to ward off the attack of disease. The fountain head of life is the stomach. A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished. To put the body in healthy condition, to feed the system on rich, red blood and throw out the poisons from the body, nothing in the past forty years has

J. H. MARTIN, Esq.

excelled Dr. Pierce's Golden Medical Discovery, a pure glyceric extract (without alcohol), of bloodroot, golden seal and Oregon grape root, stone root, mandrake and queen's root with black cherry bark.

"My husband was a sufferer from stomach trouble and impure blood," writes Mrs. JAMES H. MARTIN, of Frankfort, Ky. "He had a sore on his face that would form a scab which would dry and drop off in about a month, then another would immediately form. It continued this way for a long time. He tried every remedy that any one would suggest but found no relief. He then tried Dr. Pierce's Golden Medical Discovery which completely cured him. He has stayed cured now for two years, and I recommend this valuable medicine for impurities of the blood."

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

Escape Serious Injury.

Mr. Robert Stipp and brother, two young farmers from the Clintonville neighborhood, were driving down Main street about two o'clock Saturday afternoon in a driving rain storm. When they reached Fifth street, a man with an umbrella held down in front of his face, collided with the horse, and so frightened the animal that he began to kick viciously, and continued kicking and plunging until he had completely demolished the vehicle. Mr. Robert Stipp held on to the lines until the horse was finally caught on the sidewalk. His brother jumped out and both were unhurt, though their escape from serious injury or death was almost miraculous. The vehicle was a complete wreck.

Tried On Two Charges.

Dan Parker, a negro, was in Squire Fretwell's court yesterday on two charges of carrying concealed weapons and was fined \$25 on both charges and sixty days in jail. Parker was arrested by Jailer Farris Saturday morning about eight o'clock when he discharged a revolver in front of the court house. Parker had been in the court house and on coming out pulled his revolver from his pocket and fired at the pavement. Jailer Farris, who was across the street, placed the negro under arrest and relieved him of his revolver, which was a .33-caliber. At the county jail he was searched and a small derringer was found on his person. Two charges were entered against him with the above result at his trial yesterday morning.

Dear Amy:—

I ran into a neighbor's through the back-way the other day. My! It was shocking to see the old, battered ice-box she had. If I didn't have anything else I'd have a new up-to-date ice-box; for a sanitary, clean ice-box means a healthy family.

Would you use a rusty ice-box if you were able to buy a new one? Not for me. Baby John's milk must be properly kept. An unsanitary ice-box endangers the health of the whole family.

Yours as ever,

Lou.

Why I Bred the American Saddle Horse.

(By W. E. Stillwell.)

I was born to love a horse, and at the age of five years I owned fifteen stick horses. One was a fine show horse, with an arched grapevine neck and a leatherwood tail. When nine years old I was employed by Dr. W. H. Smith, of Leesville, Ind. to take him to and from the B. & O. S. W. R. R.

He always rode a good saddle horse, and it was then that my heart and mind became fond of the saddle horse. They possess great beauty, they are the finest horses living, with a clean, bony, well-tapered head. His neck and arch of pride and grace, a splash of spirit in his face, a tail like that of a squirrel, that is a wonder of the world, and when in action it is pleasing to the eye, and the sound of gait is music to the ear, and his wonderful greatness fills the soul with a lifting power. There is no machine that can fill the place of an intelligent horse; they are a companion to us. Traveler was a companion to General Lee and his soldiers. His great courage and faithful duties, where others failed in the hardships of war, won the hearts of the soldiers, and when he came into camp, for on the field of battle, he brought sunshine to the hearts of the brave men, and they cheered him, as they did his kind master, General Lee. Their Value as a Business Horse.—They far excel as a business horse. They are at ease under the saddle; while not so swift in harness as the trotter, they make up in beauty and conformation. As a farm horse they are active and quick to learn. While they lack in weight, they make up in step and endurance. It is upon the gentle saddle horse that our great horsemen and women take their first lessons.

The Greatest Show Horse—The saddle horse has forged to the front as America's greatest show horse. They can win more money and show in more rings than any other horse; such as the five-gaited ring, walk trot and canter, combined, model, fine harness ring, heavy harness, roadster, breeders, class, chargers, cavalry, jumpers, champion horse any breed. These classes have been won by saddle horses, with strong competition by other breeds. Saddle horse day in Kentucky at the fair is the banner day. When the Bluegrass Fair at Lexington, Ky., hung up \$1,000 for the best saddle stallion, mare, or gelding, it proved a great day. The trains and trolleys groaned by their loads of humanity, and the public roads were lined with vehicles of every description. It was a great day of saddle horse history. Again, last year, at the Bluegrass Fair, when fifty-one colts battled for the \$1,800 stake in the Colt Futurity, it shows that interest is growing, and that its originator, Mr. H. J. Krum, is a leader in the saddle and show horse interests. When the big \$6,000 California Saddle Stake fills, we will see peaches and cream champions. Hurrah for Kentucky! I hope she can win.

Their Value as a Money Producer.—When you can sell a weanling filly for \$800 and win \$700 in premiums, and get \$1,000 worth of pleasure, that means \$2,500 for a saddle filly six months old. When you sell a yearling for \$1,500 it makes your bank book shine, and when you sell a three-year-old for \$5,000 it makes it sparkle. This has been done in the great Bluegrass Nursery, where the champions are bred. Garrett Bros. refused \$5,000 for Black Squirrel when eighteen years old. Seven thousand dollars was refused for Dandy Jim. Rex McDonald sold for \$5,000. Twelve thousand dollars was refused for Bourbon King. Dinah o the Lea, a great-granddaughter of my horse, Pat Washington, sold as a three-year-old for \$5,000. Poetry of Motion is the greatest show horse living. He won four championships at New York, won seven championships at Louisville, Ky. He was shown six years at all the big shows, without a single defeat, and is still a show horse. Edna Mae comes next, winning \$14,000 in cash, \$6,000 in silver. She sold for \$7,000, which equals \$27,000. Kentucky's Choice won \$3,267 last year, and his last sale was \$7,450. Mr. John Smiley won \$1,632 on Bourbon Prince and others last year.

A Pleasure Horse—Riding horseback is the most pleasurable exercise for the modern man or woman. There is nothing else like it. It is invigorating and entertaining. It brings every part, every muscle, mind and soul into action. Breathing more fully the beams of sunlight, and the beauty of nature, the song of the birds, the bough of the trees, the breeze of Heaven, in the music that rests the brain, and binds the affection of horse and rider. Every boy and girl should learn horseback riding. The mind and body grows stronger, the years of life grow longer, and those who ride to those who pride in being kind to the American saddle horse.

Dodder in Clover.

A report from the Kentucky Experiment Station is that: One of the most destructive weeds found in Kentucky is a small twining yellow or reddish plant which clammers over clover and alfalfa, securing itself to these plants and robbing them of their sap. It comes from a minute brownish-gray seed, looking like a particle of dirt, which germinates exactly like the seed of clover, but after coming up weeds its sold on the soil and fastens upon other plants. The love-vine is a related species, but is commonly found on plants of little value, growing on wet land.

These plants have no true leaves and are not weeds in the proper sense, but parasites, deriving all their nourishment from plants of other sorts. The clover-infesting species becomes extremely destructive at times, and sometimes damages a planting so severely as to compel the owner to plow it up. Fortunately, it does not attack most other plants and hence, even if soil becomes thickly sown with its seeds, it will still produce crops of other sorts. Yet it is sometime a source of loss and annoyance to the farmer to give up a tract of land for clover, or alfalfa, because of the presence of the seeds of dodder in the soil, and the question is often asked: "What can I do to get rid of it?"

Very little can be done once soil is thickly sown with the seeds except using the land for other crops not subject to attack and waiting until the seeds have lost their vitality. Just how long this will be necessary has not been determined but it would probably be a good many years judging by what we know of the persistence of other seeds.

It is a matter of the utmost importance therefore to prevent land becoming infested with the pest and here something can be done. The seeds have been sown in large numbers in Kentucky with clover and alfalfa seed. Our work of inspecting the field seeds sold in the market showed originally that a large proportion of both the clover and alfalfa seeds contained dodder seeds. At one time screenings containing dodder and other weed seeds were imported to this country from Europe and were mixed with the seeds sold to our farmers. This fact accounts for the general presence of dodder seeds among clover and alfalfa seeds when we began our work. The pest was about that time so thickly sown over the State that at present one is liable to find its seeds in any home-grown clover or alfalfa seed offered for sale.

To avoid sowing the seeds farmers should first acquaint themselves with their appearance and to do this it is only necessary to buy a tripod magnifier costing about fifty cents, spread a sample of clover or alfalfa seeds on a sheet of white paper and separate all foreign seeds. Dodder seeds may be recognized by the fact that they are smaller than the average well matured clover and alfalfa seeds, measuring but about 0.04 inch in diameter, whereas good clover seed should measure about 0.07 inch in length, and alfalfa 0.08 or 0.09 inch. Seeds of the pest are nearly spherical, though sometimes slightly angled owing to the pressure of the seed against another in the seed capsule. The surface is dull and smooth, the color, pale gray, or light brownish gray. Seeds of the field dodder or love vine, sometimes found with clover seeds average a little larger than clover dodder seeds and thus are not so easily screened out with the sieves used by seedsmen. Standard sieves are in use, however, that will remove most, or all clover dodder seeds, and the presence of this dodder seed in samples is to be looked upon as condemning the stock from which it was taken. No man working for the good of the agriculture of his country will knowingly put such seeds on the market.

When farmers or seedsmen are unable to decide for themselves about the presence of dodder seeds, samples should be sent to the Experiment Station at Lexington, where they will be examined free of charge.

Farmers can help greatly in reducing the injuries of dodder, not only by refusing to buy field seeds in which are dodder seeds, but by refraining from harvesting clover seeds of infested fields. When dodder is prevalent in clover or alfalfa it is sometimes wise to cut the crop before the dodder seeds are ripe, or else plow the whole growth under and put the land in some other crop. A few patches of dodder in a field may sometimes be completely eradicated by using crude carbolic acid freely. This kills plants of all sorts for a time, but in one instance of slight infestation it was made use of to accomplish the purpose very effectively on the Experiment Farm.

Paper From Cotton Stalks.

Cotton stalks, it is thought, may be used for the manufacture of paper. A machine has been patented which will separate the brown bark from the inner pith, and it is claimed that excellent paper pulp may be made from the latter. From the bark a substitute for excelsior is manufactured.

Somewhat Incomplete.

Besides prophesying "warres, revolutions and the death of kynages," an almanac of the fifteenth century told you the proper day to take medicine. Monday was the day for ailments of the legs, Tuesday for affections of the head. But what the sufferer was to do who had a pain on the wrong day it does not state.

Be Happy!

Happy the girl, or woman, who has never suffered from any of the diseases of womanhood! Or, if she has been a sufferer, happy is she if she has learned of the wonderful benefits of Cardui, the woman's tonic!

Cardui is a gentle, tonic remedy, for women's ailments. It is a natural medicine—safe, harmless, purely vegetable. It has been in successful use for more than 50 years. It has cured thousands. It should do the same for you.

TAKE The CARDUI Woman's Tonic

Mrs. Mary Neely, of Denver, Tenn., says, "I think there is no tonic on earth, as good as Cardui. I used it with the very best results. I had backache and nearly everything a woman could suffer with, until I took Cardui. Now, I feel better than I have for two years. I shall always recommend Cardui to other suffering women. I can't praise it too highly. As a medicine for weak, tired, worn-out women, Cardui is safe and reliable. Try it, today.

Kentucky Crop Report.

Reports coming to the Department of Agriculture as to the condition of crops on June 1 shows the condition of wheat to be 75.4 per cent. This is a decrease of nearly four parts from 79 per cent. since May 1. With an acreage of 83.8 and a condition of 75.4 per cent. there is not a great prospect for a wheat crop in the State this year.

Condition of rye is given as 72. per cent. The corn acreage as indicated is 52.6 per cent. of an average crop, condition of corn 81.88 per cent. The great amount of rainfall and the flood condition has prevented the sowing of a large acreage of oats, 79.7 being reported, condition of which is 90.3 per cent.

Potatoes form one of the most promising crops Kentucky has this year, the acreage being 55.3 per cent., condition 85.3 per cent. The per cent. of dark tobacco transplanted June 1, is 71.4 per cent., indicating rapid progress is being made in the planting of this crop. Barley section has transplanted only 51.1 per cent. of its crop. The recent dry weather has prevented the rapid transplanting of tobacco and the use of "setters" has been resorted to in order to get the crop out.

Both the pig and the lamb crop is a short one, indicating a crop of 88.6 per cent. of pigs and 88.7 per cent of lambs. The shortage in pigs and lambs is in great measure due to severe winter and unfavorable conditions. Poultry has also suffered in this respect. The fruit crop is not a good one. Condition of apples, 70.4 per cent.; peaches, 61.8 per cent.; pears, 72.9 per cent.; plums, 81.8 per cent.; grapes, 82.7 per cent. is reported. Blackberries are not to be so plentiful this year, only 70.2 per cent. average crop reported, with raspberries but little better, 77.1 per cent. The bluegrass is reported as showing a condition of 103.5 per cent., alfalfa 91 per cent., clover 88.4 per cent.

Some places report entire failure of clover and others an unusually good crop. The same is true of the fruit and berry crop. Failure is reported from some localities in the State and an unusually good condition in others.

Drives Off a Terror.

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. Will Not Vote for Taft.

William Flinn, of Pittsburg, and Gov. Glasscock, of West Virginia, Wednesday declared that even were Taft nominated, he would not receive the votes of the presidential electors from those States. Thirty out of the thirty-eight Pennsylvania electors are Roosevelt men, and all of West Virginia's eight are pledged to the Colonel. Protection of their State and local tickets was the reason given by Flinn and Governor Glasscock for this belief.

Six-year-old Boy Proves a Hero.

Ernest Southerland, the six-year-old son of Garfield Southerland, of New-castle, proved himself a real hero when he saved his two-year-old brother from death in the flames.

The youngster had been left at home with the infant while his parents and the other members of the family were out picking cherries. During their absence the house caught fire and six-year-old Ernest, despite the danger to himself, rushed in and grabbed his baby brother from the bed and carried him out to safety. Then the little fellow returned and succeeded in pulling three or four chairs and some bed clothing out of the house.

Neighbors soon arrived on the scene, but before they could do anything the building had been destroyed, with practically all of its contents.

When your child has whooping cough be careful to keep the cough loose and expectoration easy by giving Chamberlain's Cough Remedy as may be required. This remedy will also liquify the tough mucus and make it easier to expectorate. It has been used successfully in many epidemics and is safe and sure. For sale by all dealers.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Fools a Foul Plot.

When a shameful plot exists between liver and bowels to cause distress by refusing to act, take Dr. King's New Life Pills, and end such abuse of your system. They gently compel right action of stomach, liver and bowels, and restore your health and all good feelings. 25 cents at Oberdorfer's.

You and Nature.

There are strength, repose of mind and inspiration in fresh apparel. God gives Nature new garments every season. You are a part of nature. The tree trusts, and grows, and takes storm and sun as divinely sent, and believes in its right to new apparel, and it comes. It will come to you if you do the same.—Ella Wheeler Wilcox.

Could Shout For Joy.

"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case as though just made for me." For dyspepsia, indigestion, jaundice, and to rid the system of kidney poisons that cause rheumatism Electric Bitters have no equal. Try them. Every bottle is guaranteed to satisfy. Only 50 cents at Oberdorfer's.

Writes from Oklahoma.

Mr. E. S. Ford, of Tulsa, Okla., formerly of Paris, writes most enthusiastically of that country and its many advantages. Tulsa is a model town of 30,000 inhabitants, with fine opportunities for investment in oil, gas, real estate—especially in farming. He and his two boys, Press and Isham, are proprietors of the "Mountain View Dairy" from which they clear about \$1,000 per month. Mr. Ford also writes that he is the proud father of a little daughter born June 8.

MILLERSBURG ITEMS.

Mr. E. P. Clarke is slightly improved.
Mrs. Elizabeth Howard is among the sick.
Miss Mattie Butler visited friends at Danville last week.
Mrs. R. B. Turner left Saturday for a visit to relatives at Mt. Sterling.
Mrs. Emma Long left Wednesday for a visit to relatives at Georgetown.
Mr. J. A. Miller is improving nicely at the St. Joseph hospital, Lexington.
Mrs. C. M. Marshall, and children, of Lexington, are guests of relatives here.
Mrs. Sallie Miller returned from St. Joseph hospital, Lexington, some improved.
Miss Hazel Tackett, of Owingsville, is the guest of her cousin, Miss Irene Tackett.
Miss Mary Miller, of Atlanta, Ga., is the guest of her brother, Dr. W. M. Miller.
Mrs. David Hood, of Elizaville, is the guest of her sisters, the Misses McIntyre.
Miss Valette McClintock, of Paris, is visiting her cousin, Miss Mary Louise Collier.
Mr. and Mrs. Parley Evans, of Little Rock, are guests of their sister, Miss Leona Letton.

King McNamara Captured.

After being a fugitive from justice for thirteen years, John H. ("King") McNamara, charged with the murder of former Parisian Jacob S. Keller, in Lexington, was arrested Friday in Louisville by Sheriff Dan W. Scott, of Fayette county.

The arrest of McNamara draws the curtain on one of the most cold-blooded crimes ever committed in Lexington. In February, 1899, McNamara shot Keller, who was the Q. & C. ticket agent in Lexington, at the corner of Main and Limestone streets, and from the effect of his injuries he died at a hospital a short time afterward. McNamara, who had been released on bond, made his escape shortly after the death of Keller, and has since been at large. His capture has been reported several times, but each time the prisoner under arrest proved to be the wrong man.

McNamara was taken into custody at the Seelbach Hotel as he was entering the elevator, by Sheriff Scott, and returned to Lexington, where he is now confined in the county jail. His capture was effected through information gained by the Lexington officials from a female detective in Louisville, who had been working on the case. It is said that McNamara had been hiding in Louisville for several years.

Jacob S. Keller, who lost his life at the hands of McNamara, formerly resided in this city, and was a son of the late Dr. David Keller. He was the first cousin of Dr. A. H. Keller, of this city.

Harbeson Concert Tonight.

Perhaps it is not too much to say that no vocalists who have ever appeared in Paris, have more admirers than Miss Mary Dan Harbeson and her brother, Mr. Robert Harbeson, who will give a concert at the Methodist church this evening.

Mr. Harbeson has appeared only once before a Paris audience, but those who heard him on that occasion were delighted with his pure, rich baritone voice, and with the power and beauty of his singing.

Miss Harbeson was first heard here in the series of meetings conducted by Rev. Frank Wright, the Indian evangelist, at the Presbyterian church, and the sweetness and expression with which she rendered the gospel songs, so thrilled and charmed the audience, that much of the success of the meeting was due to her efforts, and her popularity was fully established.

Later, this talented sister and brother were heard in concert, and the melody and beauty of their blended voices, coupled with their charming personality, won for them the first place in the hearts of all lovers of music who heard them. One of the chief attractions of their singing is the clearness of their articulation, every syllable being distinct and full of expression. The singers will be accompanied this evening by Miss Frances Johnson, one of the most talented pianists of our city.

The concert will be for the benefit of the Methodist Sunday school and the auditorium should be crowded to the utmost capacity to help the children pay their subscription to the building fund of the church, and to express the admiration and appreciation of the Paris people for these accomplished musicians. Admission 50 cents.

Showers Help Crops.

The drought which has prevailed in this section for the past several weeks has been broken by the fall of copious showers in the past few days. The dry weather worked considerable hardship upon the farmers whose crops were rapidly succumbing for the want of necessary moisture, and until rain relieved the situation agriculturists were becoming very apprehensive. Tobacco planted in good season has suffered to no small degree for the want of a good soaking rain and the recent showers have greatly benefited the plants.

Construction Work Begins.

The construction gang which will do the double track work between this attendant confusion would drown the sound of the official's voice, and he will use a snarl whistle. All numbers ending in "naught" will be omitted to simplify the getting away of the more than forty cars that will be entered when the tour starts. The cars will be checked in and out, that the chairman may keep a line on the cars, and not for any competitive features, as no prizes or awards are offered.

Machine Successful in Woodford

Frank O'Neal, Jr., has just returned from Woodford county, where he has been engaged with his hemp breaking machine in breaking out the crops of several prominent Woodford producers. After hauling the machine over fifty miles of turnpike it worked perfectly and turned out several crops of hemp fiber in record time. For Robert McConnell, Jr., he broke a crop of 30 acres in 45 hours; for J. N. Camden 50 acres in 63-4 days, and for Rout Cleveland six acres in one day.

Besides turning out hemp in such time the machine handles all grades of the fiber, many of which by the hand methods of breaking are allowed to go to waste. In a few days Mr. O'Neal will leave for the East where he will have constructed several more of the machines, one of which will be placed in operation in this county. Mr. O'Neal plans to take at least three of his machines to the Southern part of California, where a hemp similar to that grown in Kentucky grows wild. The texture of the fiber of wild product, while not quite as fine as that cultivated in Kentucky, answers several purposes, but great difficulty has been experienced in getting it on the market.

The invention of Mr. O'Neal has had the effect of stimulating the growth of hemp in Central Kentucky and farmers who for several years have abandoned its culture will sow a large acreage this year, now that there is a visible means of getting their product on the market without the many vexations of the hand-breaking machines, and the scarcity of men to operate them. Besides they will be enabled to get their product on the market several months sooner than heretofore.

A Rare Opportunity.

Attend the Master Commissioner's sale Thursday, at 10 o'clock, of the Massie lots on Scott avenue and Massie Street. Eleven beautiful building lots will be offered. Terms 6, 12 and 18 months.

Exercises at Baptist Church.

Sunday morning at the Baptist church Children's Day was observed with appropriate exercises by the members of the Sunday school. The children, who were trained by Miss Clara Chambers, acquitted themselves with credit to their instructor and her assistants. The exercises, which were presided over by Mr. C. O. Hinton, Superintendent of the school, were as follows:

Hymn—"All Hail the Power of Jesus' Name."
Scripture.—
Prayer.—
Hymn—"The Bible."
"Children's Day"—Recitation—Virginia Thompson.

"Nature's Message"—By six little children, Russell Mullins, Frances McCarty, Herbert Myers, Grace Parsons, Thelma Payne, and Fithian Tapp.
Song—"Jesus Loves Even Me."
Primary Class.

Recitation—Frances Thompson.
"Christian Science Discipline"—Raymond Stamler.

"The Sweet Story of Old"—Children.
Recitation—Roger Burnett.
Candle Exercise—Six Children.

Offering—
Hymn—

After the program, Rev. E. M. Lightfoot, gave an interesting short talk on "The Book." The offering, which is taken at this annual observance of Children's Day, is devoted to the purchase of copies of the Bible to be sent to mission fields.

Former Blue Grassers in Trouble

Three former Blue Grassers who are with the Battle Creek, Mich., club, are in serious trouble, according to newspaper accounts that have been received here. "Spoke" LaRoss, formerly of Winchester, is under suspension, Callahan, formerly of the same club, is likely to be suspended, while Ed McKernan, who managed the Paris team two seasons, is likely to be down on the carpet with another of the Battle Creek players. According to the story, LaRoss was fined by an umpire, who, when about to leave Bay City, where the trouble took place, was asked by McKernan if the fine was going to stick. Upon being informed that it was McKernan said he had gone away and returned with LaRoss and Callahan. The former accosted the umpire, slapped him in the face while the other men stood by and looked on without making any effort to stop the scrap. The president of the Southern Michigan League fined LaRoss and set him down for an indefinite period and is now investigating the case of McKernan and Callahan.

Fayette Sheriff Shot by Policeman McCann.

In a shooting affray which took place in Lexington, Saturday morning, Sheriff Dan Scott was wounded by Patrolman Ben R. McCann of the Lexington police force. The shooting occurred about eight o'clock, when the two officers met on East Main street, directly opposite the Phoenix Hotel.

Three shots were fired by McCann from a 38-calibre revolver, two of which took effect, one piercing Scott's left shoulder, severing an artery, and the second glancing across his forehead. The third bullet went wild. The shooting occurred without warning and without a word being spoken by either of the men.

An old grudge, which is the outcome of a difficulty between McCann and Scott at an election booth last November, is said to be the cause of the shooting. Scott was taken to the Good Samaritan Hospital, where it was found his shoulder had been shattered by the bullet, and the severed artery caused much loss of blood. His condition, though serious, is not regarded as dangerous, unless complications arise. McCann was arrested and placed in jail, and was later released on \$1,000 bond.
